

Adding PPD Documentation to MediEase 3.30+

These directions are to add a new event so that a patient that has a Positive Result from a PPD Test and A Negative X-Ray, will now stay in compliance if a document/questionnaire is completed each year thereafter.

This new event will be associated with the PPD 2 Step/Ongoing One Step Immunization requirement. All steps necessary for the new event to contribute towards compliance are included.

1. If MediEase Immunization is open, close the program.
2. Open the IMM (Immunization Maintenance Module) program and chose the **Events** tab.
3. Click the **Add** button. This will open the dialog box for adding a new Dose/Event.
4. In the **Code** field type something meaningful (ex. PPDDOC). For the **Name** field type PPD Document. From the **Event Type** drop down box choose Treatment/Visit.
5. Click the **OK** button.
6. Click on the **Immunizations** tab and then double click the *PPD 2 Step/Ongoing 1 Step* Immunization. This will bring up the Immunization dialog box.
7. Click the **Select** button. This will bring up a new dialog box. From the list box on the left, find the newly created PPD Document event and move it to the list box on the right.
8. Click the **OK** button.
9. At this point you should be back at the Immunization dialog box. Double click on the word **General** in the Compliance Rules list box. This will bring up the General Compliance Rules for PPD 2 Step/Ongoing 1 Step dialog box.
10. Click the **Or** button. This will add an **Or** statement to the list box.

11. Click the **Result** button. This will bring up the Result Rule dialog box. From the 1st drop down list choose PPD Test. From the 2nd drop down list choose positive. Click the **OK** button.
12. Click the **Result** button. This will bring up the Result Rule dialog box. From the 1st drop down list choose X-Ray for TB. From the 2nd drop down list choose negative. Click the **OK** button.
13. Click the **Event** button. This will bring up the Dose/Event Rule dialog box. From the drop down list choose PPD Document. Click the **must be within the last** and choose 1 year.

The General Compliance Rules for PPD 2-Step/Ongoing 1-Step after adding the documentation "Acceptance"

14. Click the **OK** buttons until you are back to the main screen of the IMM.
15. Exit the IMM.

In MediEase the new event is now associated with the PPD 2-Step/On-going 1 Step Immunization Requirement.
